Lesson Plan

At home they dried off. They were safe and warm. They had their picnic in the house that day!
12

"It's nice out," said Dad. "Let's get out of the house. Let's go for a bike ride."
1

Create a whole lesson! Combine both suggestions above--> printable book #24 "Race the Raindrops" could be printed, folded, and sent home with the maze activity, "Help the Boy Get Out of the Rain".

For <u>Elementary School</u>, go to

WORLD BOOK KIDS

Complete an activity or science project.
- From the home page, click on **Activities** or **Science Projects** → select from categories shown like **Craft Room** or **Crack the Code** in Activities, and **Machines** in Science Projects.
- These are all printable, simply click on the gear wheel on the top right of the page and choose print.
- *Some of these come with lesson plans found under Educator Tools.*
- *These range in age - some are young enough for Kindergarten and others are old enough for Middle School.*
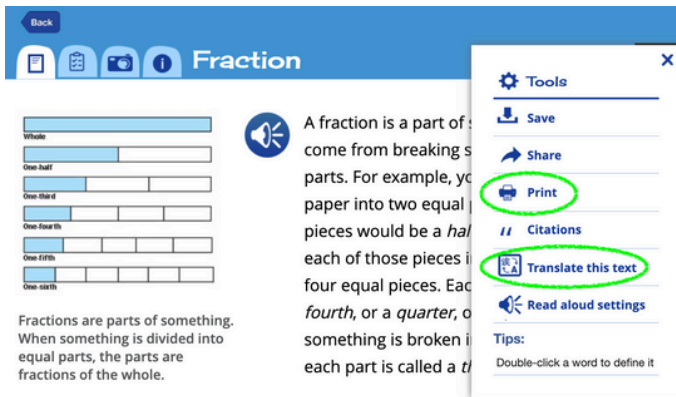

Articles
- All World Book articles can be printed using the same gear wheel in the top right corner of each article.
- To find articles by standard, click on **Educator Tools → Curriculum Correlations**.   Use the filters to choose subject and grade level. Standard strands will be listed → click on the blue hyperlink to be taken to an article or activity for that strand.
- Articles can also be printed in over 103 languages.
- Print an article and annotate the paper copy.
- Take it a step further by analyzing tables, maps, and graphs printed with an article, or print the discussion questions found under **Related Material.**

Study geography under **Maps & More**.
- Choose **Outline maps & flags.**
- Print maps without words to practice labeling, print them with words to check your own answers.
