

Dear Educator,

Great news -- your school district has a subscription to *World Book Online*! This means you and your students have FREE access in the classroom, at home, or on the go from any internet-connected device.

What is World Book Online?

A suite of digital resources full of educational content to help you reach every learner and save you time! *World Book Online* supports the curriculum with a range of content and features that spans all subjects and grade levels. We make collaboration easier with Google Classroom and Microsoft OneDrive integration.

Ready-made lesson plans

Google classroom and Microsoft OneDrive integration

Search by standard or Lexile level

Read aloud, translate, and other accommodations

Why World Book Online?

The range of topics and features provides users of all ages, abilities, and interests a place to explore in a safe, trusted environment. World Book products are tiered; each one is designed for a target age group so the word choice, amount of content, and navigation is age appropriate. Each resource builds upon the previous to grow with students as they move through school.
