

## WORLD BOOK WIZARD

Wizard is a learning tool that can be used for extra practice and support at home. With practice questions on various topics covered in school, this is a personalized study-aid.

Students get feedback as they answer questions to help them learn, and they can unlock educational games and earn badges along the way - making it fun and adding incentive to keep going!

## LOG IN AND LEARN TODAY!

1. Select *Wizard* from the World Book Super Homepage.
2. Log in to your **My World Book** account.
  - a. If you do not have an account yet, click **create account** and fill in your details.

MATH	<b>Addition</b> Impress your teacher as you correctly add up numbers less than 20!	START
MATH	<b>Addition Within 1,000</b> Watch your score add up as you get these problems correct!	START
MATH	<b>Addition Within 100 (Advanced)</b> Let's see if you can get 100% on these addition problems up to 100!	START

## PRACTICE DRILLS

Learning is personalized; the drill adjusts to your speed and level! If you get a question right, your progress moves forward. If you get a question wrong, you'll get feedback to help you learn!

**Earth in Space Drills**

Which of these statements about the moon is FALSE?

The moon has no life of any kind.

Earth is the only planet in the solar system with a moon.

The moon is much smaller than Earth.

**Feedback**

Good job! Earth is NOT the only planet in the solar system with a moon. The other planets have moons - Jupiter and Saturn each have over 60!

**Earth in Space Drills**

During a total solar eclipse, what is the path along which the moon's shadow passes across Earth called?

the shadow path.

the path of totality.

the path of darkness.

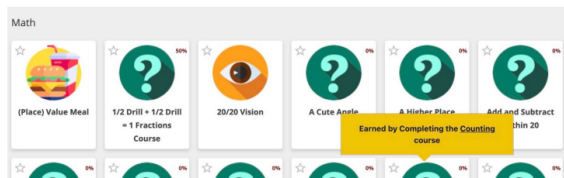

**Feedback**

During a total solar eclipse, the path along which the moon's shadow passes across Earth is called the path of totality.
